

## There are nine common business finance problems faced by most small businesses

Finance is tricky isn't it? Everyone wants to spend more time running their business, and less time doing their accounts.

We've put together a list of the nine most common finance problems faced by small businesses just like yours.

**Find the problem that you face everyday, then see how we can help point you and your business in the right direction.**

## How many of the most common problems affect you?

**1 Too much paperwork?** You need to find a way to reduce the amount of time spent on administration, so you can spend more time running your business.

**2 Unhappy with your current software?** Fed up with trying to make it work? You need to find an alternative that's easy to set up and use.

**3 Struggling to keep up to date?** If finances are difficult because you're doing things manually, you might need help automating them and making them more accurate.

**4 Overheads too much?** You need to take more control of them.

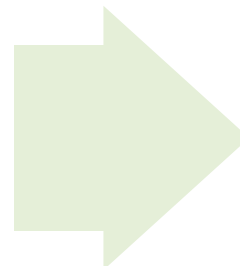

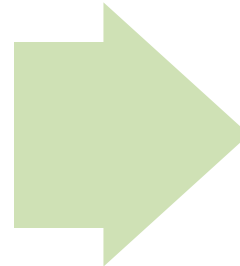

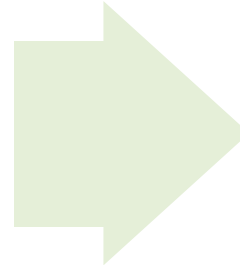

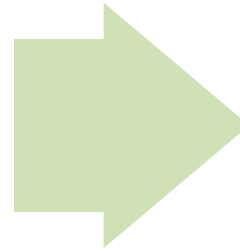

**5 Not enough time in the day?** You need to cut the time it takes to do finances and get on with what you're good at – your job.

**6 Spending out of control?** You need to have a better idea of how much cash or cheques are going in or out.

**7 Payment problems?** If you're constantly being chased by suppliers you need something to help schedule payments better.

**8 Not sure you're legally compliant?** You need to ensure you're up to date with legislation to make sure you don't get fined.

**9 Drowning in red tape?** You need the right information to make things a lot clearer.
